**Marathon, 24 /5/2020**

**To:** Commissioner for Cohesion and Reforms, Mrs  
Elisa Ferreira

Honorable Mrs Ferreira,

I would like to express my sincere thanks personally as well as on behalf of the City Council of Marathon for the Commission's approval investment of €84 million from the Cohesion Fund for the most ambitious project for both the Municipality of Marathon and Eastern Attica generally.

Any project that aims at the improvement of our citizens' day to day lives, especially if it involves their health and the environment surrounding them is crucial and precious.

It is an emblematic construction that will be leaving a strong environmental imprint upon us.

The approval of the investment will help us upgrade Marathon city leading it to a city with all the modern standards.

We worked on this direction from the first day of our duties: to lay the groundwork for a better life with a perspective towards the future.

We look forward to any future collaboration and support from the European Commission and the EU on any project and reforms that would involve the upgrading of our citizens' lives and wellbeing.

Yours sincerely

**THE MAYOR OF MARATHON**

STERGIOS TSIRKAS
